1. What is the Environmental Management Course?

Reducing our impact on the environment is one of our major priorities. Achieving sustainable development will require efforts from all People, from individuals, to Government, Commercial and Institutional Sectors (Particularly in offices) and the Private Sector. It will entail making changes in the way we live and work, and the way we produce and deliver goods and services.

This course will advise you on ways you can help to make your own office / building / small company / large organization more environmentally appropriate.
